MACRO AND MICRO EVIDENCE FOR THE EXISTENCE OF GOD
CANADA’S RELIGIOUS COMPOSITION
1971-2011
Who has created seven heavens in harmony. No incongruity canst thou see in the creation of the Gracious God. Then look again: Seest thou any flaw?

Aye, look again, and yet again, thy sight will only return unto thee confused and fatigued.
'this in effect is the faith of all physicists (referring to the perfection and order of the universe) the deeper we seek the more is our wonder excited, the more is the dazzlement for gaze.'
Kepler’s First Law of Planetary Motion

Planets orbit the Sun in ellipses with the Sun at one focus.
Kepler's laws of planetary motion

Second law

A radius vector joining any planet to the Sun sweeps out equal areas in equal lengths of time.

\[ A_1 = A_2 \]
Kepler’s Third Law

- The square of the orbital period (time it takes to complete one orbit) is directly proportional to the cube of the mean (average) distance from the sun to the planet.

- What does this mean? A larger orbit requires more time to make one complete revolution.

- Kepler predicted EXACTLY how much time each planet’s orbit would take.
The Four Fundamental Forces of Nature

- Electromagnetism
- Weak Interaction
- Strong Interaction
- Gravitation
Evolution of Forces

Scientists also hold the belief that all the four forces were of the same origin in the beginning of the universe. In the course of time, the original force evolved, the various force emerged and became independent.
And We have made the heaven a roof, well protected; yet they turn away from its Signs.
‘the Holy Quran enjoins us to reflect on the verities of Allah’s created laws of nature. However that our generation has been privileged to glimpse a part of His design is a bounty and a grace for which I render thanks with a humble heart’.
Till, when they reach it, their ears and their eyes and their skins will bear witness against them as to what they had been doing.

The Holy Quran is a Book so full of wisdom that it has brought out the accord between the principles of spiritual medicine, that is to say, the principles of religion which are truly spiritual medicine, and physical medicine, and this accord is so fine that it opens the doors of hundreds of insights and verities.
