External Qualities: With all its overpowering charm and beauty the Fatiha is charged with truth and wisdom.

Internal Qualities: Healing of Mind and spirit
Surah Fatiha and Rose (surah shifa)

- The excellences of Surah Fatiha are in all respects similar to the wonders and excellences of the rose, that indeed they far exceed them. This illustration was an experience of the nature of revelation.

- I beheld myself holding Surah Fatiha, which had an exceedingly lovely shape in my hand. The paper on which it was inscribed appeared as if it was loaded with countless red and delicate roses. Every time this humble servant of Allah recited a verse of the surah, a number of these roses rose into the air with a sweet cadence. These roses were very soft, big, bright, moist, fresh and Sweet-smelling, filling the heart and head with fragrance as they soared, thus inducing a state of ineffable joyousness in the mind altogether above and withdrawn from the world and all that it holds.
Qualities of a Rose

- **First** external. For instance, its **colour** is lovely, its **fragrance** is delightful and very pleasing.
- its **petals** are of an extreme delicacy in texture and,
- it exhales a most agreeable air of freshness and purity.

- **Secondly**, there are properties inherent in it with which the Lord of Absolute Wisdom has endowed it, and to be found in its essence.

Some of these are: it is wholesome for the heart and tones it up and reduces bile and revitalizes the system and lifts up the spirit, dissipates choler and phlegm and strengthens the stomach, liver, kidneys, intestines and lungs and

- is very beneficial for a variety of physical ailments. It is because of these twofold qualities that it has been held beyond the range of human capability to manufacture a flower as lovely in colour and agreeable in fragrance and at the same time as soft and tender and delicate and clean with all its internal properties as is the rose.

Note: Hazrat Promised Messiah (as) used to drink rose water for heart and some other ailments. (Mulfoozat)
